In international law, a sovereign state is a nonphysical juridical entity that is represented by one centralized government that has sovereignty over a geographic area.

Sovereignty is the central organizing principle of the system of states. However, it is also one of the most poorly understood concepts in international relations.

The sovereign state emerged in Europe as a new and strong political entity with the centralized monarchies of England, Spain, France, and Portugal.

Main Argument: Spruyt attempts to answer the following questions: How did the sovereign state arise? How does this affect IR? The present international system

State sovereignty is sometimes Jean-Jacques Rousseau rejected monarchical rule in favor of the other type of authority within a sovereign state, public sovereignty.
